I would like to add my voice to the avalanche of complaints against the anti-competitive business practices of Microsoft. If there was ever a time to stand up against a tyrant, it is now, while they are still small. If not, we may set a dangerous precedent, allowing powerful corporations to dictate policy to the People of the United States. Thank you.

Bishop: He's serious.

Whistler: I want peace on earth and good will toward man.

Abbott: We are the United States Government. We don't do that sort of thing.

Bishop: You're just gonna have to try.

Abbott: Ok, I'll see what I can do.

Whistler: Thank you very much. That's all I ask.
